

02 Programs at Brigadoon

Develop skills and confidence in nature.

Our programs focus on giving students new experiences, finding appropriate challenges for each of them as individuals, and supporting them through tackling those challenges. We'll help them to reflect on their own areas of strength, notice their resilience, and to take away an important understanding of how they can meet and conquer the next challenges that will face them in their chosen career paths and lives.

Take part in our typical program offerings, or work with us to create an experience that will fit your curriculum needs and desired outcomes for your particular group of students. Many of our programs can be adapted to fit the curricula for classes like science, physical education, leadership, art, music, drama, and many more!

Regardless, our programs will give students an opportunity to work together collaboratively, to learn more about the role they play on a team and how to be the best possible teammate in their future work settings. We'll challenge them to step outside of their comfort zones, increase their respect for and comfort in nature, and try activities they may have never tried before! We'll reflect together on the experiences they've had over the trip to make sure they go home with a clear picture of what they've accomplished and learned.

Our activities include, but are not limited to:

- Art (arts & crafts, nature art, pottery)
- Archery
- Canoeing
- Climbing Wall
- Cooking
- High Ropes Challenge Course
- Fire Building
- Giant Swing
- Hiking
- Kayaking
- Leadership Skill Development
- Nature Education
- Shelter Building
- Swimming
- Team Building

Trips of any length

Groups are welcome to join us for an afternoon, a day, an overnight stay, or a week! Our beautiful facility includes 5 state-of-the-art cabins which hold up to 30 people in each. 2 of our 5 cabins are also available in the winter.

Delicious food

Our incredible kitchen team, led by our Red Seal chef are experts at producing delicious food that kids love and can even cater to a wide range of dietary needs, since that's what we do! We eat 6 times a day at Brigadoon, with a snack in between each meal. Groups are also welcome to bring packed lunches if that suits you better!

Other opportunities

We also offer program frameworks which are the ideal fit for your school's Leadership class or Student Council and we can adapt our offerings to meet the curriculum of a wide range of other classes. However, if an onsite program isn't the best fit for you, reach out to learn more about our **Bring Brigadoon To You** program!
